

Keep the happy in your holidays

Safe shopping tips for the season

#1 PAY SECURELY IN STORE

Use a payment card with a chip or contactless symbol on it to protect your data from being stolen in the event of a data breach.

#2 PAY SECURELY ONLINE

Click to pay with Visa for an extra layer of protection and always check the URL to ensure it begins with "https://" — the "s" at the end confirms a secure connection.

#3 PAY SECURELY IN APP

Update your passwords with a strong password unique to each account or better yet, switch to fingerprint or facial recognition for account login and/or payments if it's an option.

#4 LOOK OUT FOR PHISHING SCAMS

Be careful of unsolicited and suspicious emails or phone calls. They may try to steal personal information like your account number, username and password.

#5 UPDATE SYSTEM AND APPLICATION SOFTWARE

Install the latest software before shopping on your computer, tablet or phone. Updating software helps protect from vulnerabilities.
